Summary

As a university student seeking a position as a Front-End Engineer, I am driven by my passion for creating exceptional user experiences through web development. With a strong foundation in programming languages such as HTML, CSS, JavaScript, and React. I am eager to leverage my skills to contribute to dynamic and user-friendly websites.

Projects

- Portfolio Website using HTML, Tailwind CSS, and React.js
- Gym Website using HTML, Tailwind CSS, and React.js
- Dynamic Website design using HTML, CSS, JavaScript, Node.js, and MongoDB
- Airplane reservation system using OOP
- Hospital Management System
- Play music using Human Emotion Detection (**Final Year Project**)

Education

BS (Computer Science)

Karachi University BSCS Graduate (2024)

Intermediate

Chiniot Islamia Public College

Matriculation

White House Grammar School

Skills

- Proficient in HTML5, CSS3, and JavaScript for building responsive and interactive web applications.
- Strong understanding of the React JS library and its core principles, such as components, state management, and virtual DOM.
- Experience in developing user interfaces (UIs) using React JS, ensuring high performance and scalability.
- Knowledge of modern web development practices, including CSS and CSS frameworks such as Bootstrap or Tailwind CSS.
- Hands-on experience with RESTful APIs and asynchronous JavaScript (AJAX) for fetching data.
- Proficient in version control systems like Git, including branching, merging, and pull requests for collaborative development.
- Continuous learning and staying updated with the latest trends and best practices in web development to deliver modern and efficient solutions.
